

MODEL V2

SMART CONTROL KIT

CONNECTIVITY & CONTROL

Control your garage door from your smartphone

Adding the beam Smart Control Kit enables a garage door opener to be controlled by a smartphone. Receive real-time alerts if your garage door has been left open, manage access to your garage and monitor door activity—from anywhere in the world—all from your smartphone.

beam Technology

- ▶ Securely monitor and control your door activity
- ▶ Receive notifications on your door status (and whether it has been left open)
- ▶ Amazon Skills Compatible – Ask Alexa to open or close your door
- ▶ **Free** IFTTT (If This Then That) integration
- ▶ Integrations with a number of other smart home products and services

Performance

- ▶ Controls one door
- ▶ The WiFi enabled controller mounts on or near the opener
- ▶ The wireless door sensor mounts on your garage door
- ▶ The V2 can be retrofit to most garage door openers*

Free Smartphone App

Search for "**beam Home**" where you download your apps and register your account on your smartphone.

**see the back of this sheet for compatible openers*

This kit should be used only on sectional doors and with garage door openers made after 1993 with a photo-eye safety system.

Specifications

Electrical/Controller

Input voltage: 120 - 240 VAC

LED: 380 lumens
Audio: 100 dB
WiFi: 2.4 GHz b/g compatible
ETL tested to UL325: Yes

Electrical/Sensor

Input voltage: 3.0 VDC
Wireless: 2.4 GHz
Battery: 2x AAA

App

iPhone/iPod/iPad (iOS 9.0+)
Apple Watch (WatchOS 1.0+)
Android (2.2+)

Physical

Operating temperature: -22°F to 158°F

Safety & Features

Tested to UL 325

Dimensions

Controller: 3.2" x 3.2" x 1.18"
Door sensor: 2.65" x 1.75" x 0.98"
Carton: 11.4" x 5.6" x 3.2"
Weight: 1.3 lbs.

Contents

1 Controller
1 Wireless door sensor
1 Power supply transformer
1 Connection cable
1 Installation guide
2 AAA batteries

Warranty

One-year warranty

MODEL V2

Secure

beam uses industry-standard security technology to keep your data and access to your garage safe and secure. All communications and sensitive data are secured in our databases using the same technology as online banking. In addition, numerous security mechanisms to prevent unauthorized access to your controller have been put in place. Fingerprint recognition technology can be enabled on beam apps for enhanced security.

Security standards are always updated as technology evolves.

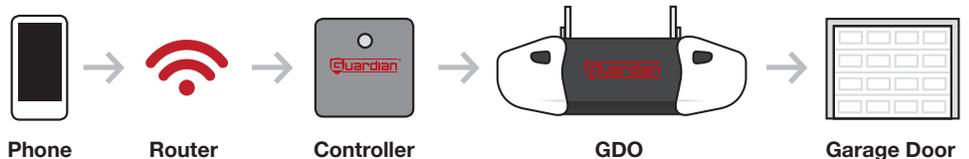

Confidence

Find helpful hints on adhguardianusa.com/beam on how to create IFTTT applets and connect to Amazon Alexa. Guardian will be here to help you. Web, email and phone services are available. Call Tech service at 1-424-272-6998.
