INSTRUCTIONS FOR Radio Control Operator
Single entry transmitter O220

Read the following instructions thoroughly before using the remote.

This transmitter must be adjusted so that the coding switches match the coding on your present operating transmitters or receiver

FCC Regulations: This device complies with FCC Rules Part 15. Operation is subject to following two conditions: 1) This device may not cause harmful interference. 2) This device must accept an interference that may cause an undesired operation. Transmitter distance may vary due to circumstance beyond our control.

Programming Remote Controller to the Opener

1. *Remove the Transmitter Cover*

   Remove the access cover from the front of the transmitter by sliding the cover away from the top of the transmitter (Figure A). This will expose the battery and the dip switches. The code can now be changed using a small screwdriver.

2. *Setting the codes*

   You may set your transmitter to any code you desire, but be sure the code you set matches both your transmitter and receiver.

   There are nine (9) dip switches, each of which can be placed in three different positions (+,0,-). DO NOT set all switches in the same position, such as all +, all 0, all -, (Figure B). WARNING: No other adjustments should be made inside the transmitter.

Slider the cover for battery replacement
Battery Type: 23A
